

Rishi Jha

Senior iOS Developer | SwiftUI • UIKit • WebRTC • Real-Time Communication

● Gurugram, Haryana, India ● +91 9374323808 ● rishijha937@gmail.com ● linkedin.com/in/rishi-jha-a03a08137 ● rishi-portfolio0.netlify.app

PROFESSIONAL SUMMARY

Results-driven iOS Developer with **5+ years of experience** building scalable, high-performance native iOS applications using Swift, SwiftUI, and UIKit. Specialized in **real-time communication systems**, chat architecture, WebRTC audio/video calling, Socket.IO integration, and scalable mobile app architecture. Successfully delivered production-grade applications on the **US App Store** with thousands of active users and **4,900+ combined ratings**. Strong expertise in clean architecture, secure REST APIs, payment gateways, Firebase services, and polished user experiences.

CORE SKILLS

iOS Development

[Swift] [SwiftUI] [UIKit] [Objective-C] [MVVM Architecture] [Clean Architecture] [Combine] [Async/Await] [CoreData] [URLSession] [Dependency Injection]

Real-Time Communication

[WebRTC] [Socket.IO] [Live Audio/Video Calling] [Real-Time Chat] [ICE Candidate Handling] [SDP Negotiation]

Backend & Integrations

[REST APIs] [Firebase] [Push Notifications (APNs)] [Stripe] [In-App Purchases] [JWT Authentication] [Multipart Upload APIs]

Tools & Technologies

[Git / GitHub] [Xcode] [Postman] [Figma] [App Store Connect] [TestFlight] [CI/CD]

PROFESSIONAL EXPERIENCE

iOS Developer

Perfection Geeks

2025 – Present

Gurugram, India

- Developed scalable real-time communication systems using **WebRTC** and **Socket.IO** in SwiftUI.
- Built production-ready **audio/video calling modules** with signaling, ICE handling, and low-latency communication.
- Designed advanced **WhatsApp-style chat architecture** supporting media sharing, typing indicators, delivery states, and real-time updates.
- Integrated secure **payment systems** and API-driven marketplace features.
- Improved application performance, code maintainability, and UI responsiveness using modern iOS architecture patterns.
- Collaborated with backend and design teams to deliver production-grade mobile experiences.

iOS Developer

Freelance

Sep 2023 – Present

Remote

- Delivered custom iOS solutions for startups and clients across diverse domains.
- Developed modern **SwiftUI applications** with scalable architecture.
- Implemented Firebase, payment gateways, push notifications, and REST API integrations.
- Created responsive and polished UI experiences from **Figma** designs.

May 2023 – Sep 2023
Ahmedabad, India

Ahmedabad, India

- ## iOS Developer

Jan 2022 – May 2023

Ahmedabad, India

- ## iOS Developer

Feb 2021 – Jan 2022

Ahmedabad, India

- ## iOS Developer

Aug 2019 – Aug 2020

Ahmedabad, India

- ## FEATURED PROJECTS

- Real-time social feed
- Marketplace listings
- Secure payments with Stripe
- AI-powered listing support
- Real-time messaging
- Push notifications
- Media uploads & sharing

- Live audio/video calling via WebRTC
- Real-time messaging
- Multi-media sharing
- Parent/student management
- Attendance & dashboard systems
- Custom SwiftUI interfaces

- 250+ game levels
- 13 language support
- In-app purchases
- Smooth animations & optimized gameplay

EDUCATION

Saurashtra University, Raikot

2017 – 2019

University of Pune

2013 – 2016

STRENGTHS & AVAILABILITY

◆ Core Strengths

- ✓ Strong problem-solving and debugging skills
- ✓ Deep understanding of scalable mobile architecture
- ✓ Experience shipping production apps to the App Store
- ✓ Strong UI/UX implementation capability from Figma
- ✓ Experience with complex real-time systems & communication flows
- ✓ Clean, maintainable, and performance-focused coding practices

◆ Open To

- Senior iOS Developer Roles
- SwiftUI Developer Roles
- Real-Time Communication / WebRTC Projects
- Remote / Hybrid / On-Site — Across India
